MIKE LINDELL

2020 Election Summary

The Big Lie

Trump 1,850,103

Biden 1,143,349

Won by 706,754 votes

The Truth

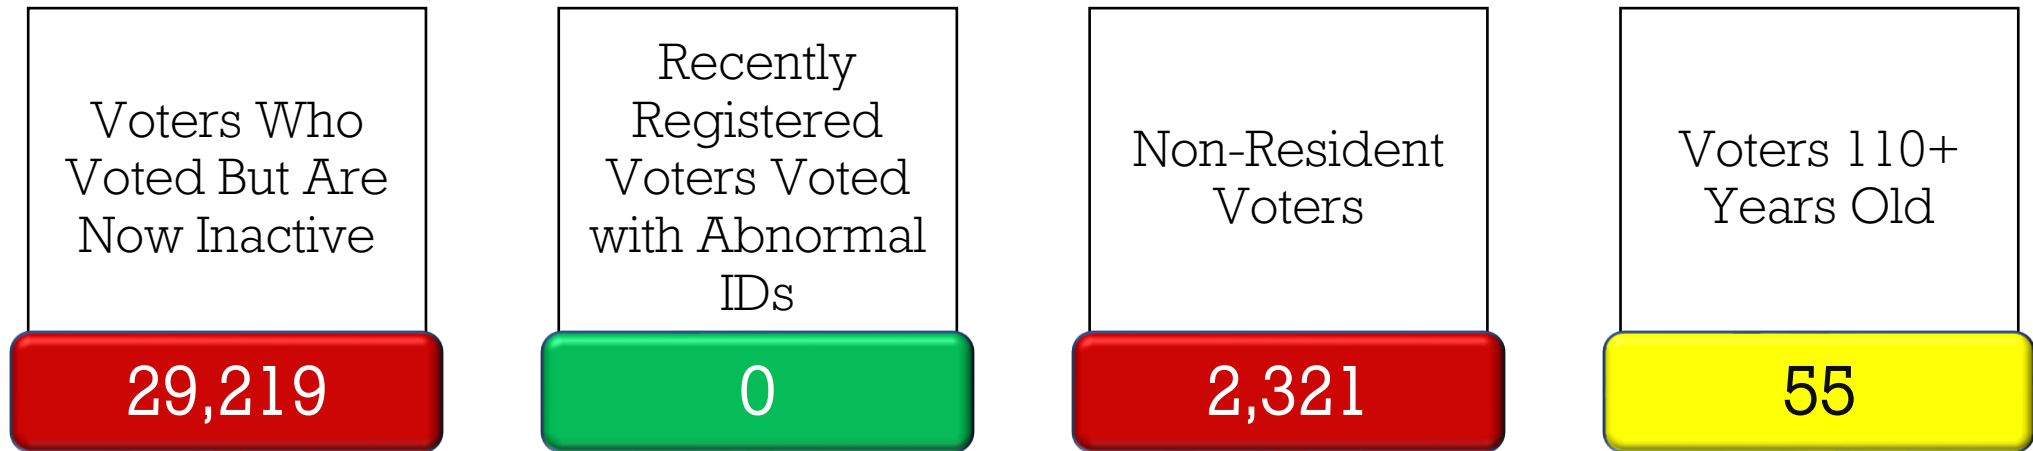

Trump 1,975,967

Biden 1,017,485

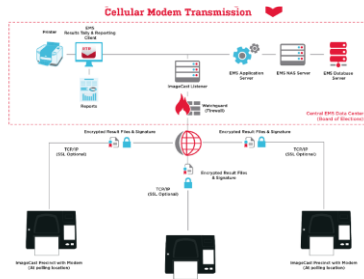

Won by 958,482 votes

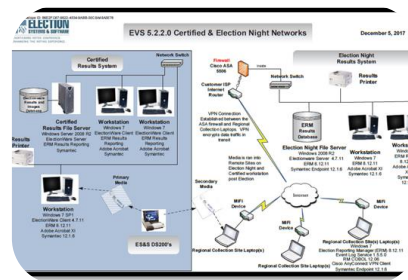

Voter Registration Anomalies

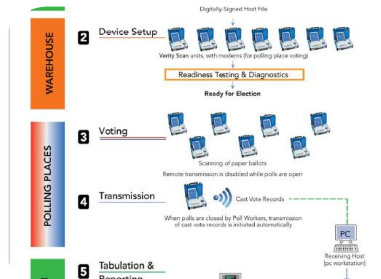

Voting Systems

Dominion
Voting Systems

ES&S

Hart Intercivic

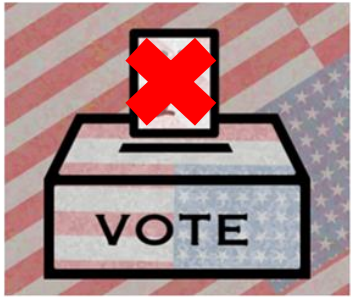

MicroVote

Unisyn

Explain This

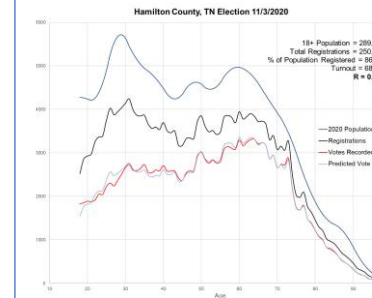

70% of Tennessee counties will still be using Direct Recording Electronic (DREs) that create no auditable paper ballot in the 2022 midterms

In Williamson County, after Dominion machines malfunctioned in October 2021 election, County Election Commission replaces with equally vulnerable ES&S machines

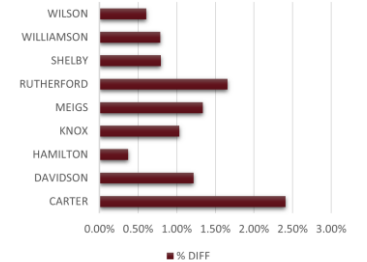

6 Strong Election Integrity Bills Failed to make it out of Committee including blocking foreign interference and allowing secure, hand-marked ballots

In 14 out of 14 counties, the vote count, by age, could be predicted from the turnout and numbers registered, with a correlation coefficient of 0.98 to 0.997.

SOS v County Vote Difference

8 Analyzed Counties had an average difference of .97% between Certified SOS Totals and County Voter History Files

Roadblocks

Machine vendors

- Vendors control the entire process – from the ballots to BMDs to printing ballots to scanning ballots, tabulating ballots and tallying entire county totals. A monopoly without ANY citizen control.
- Despite real evidence that machines can be hacked, vendors refuse to answer any questions or allow internal inspections.
- Vendors are anything but transparent.
- Tennessee Secretary of State, Coordinator of Elections, State Election Commission and county election commissions protect the vendors, instead of citizens.
- The EAC has proven its lack of desire to protect citizens against questionable machines that have been proven again and again and again as vulnerable and untrustworthy.
- There are only 5 SEC authorized voting machine vendors in TN: Dominion, Hart InterCivic, ES&S, MicroVote & Unisyn
- Among these vendors there are multiple systems. ie. Hart has 4 systems in use in TN: 1) eScan 2) eSlate 3) VerityScan 4) Verity Touch
- Within each system, there are multiple models.
- There are roughly 30 different voting machines in use in TN.

Data Access

- The Secretary of State refuses to answer questions on voting machine certification performed in the state, how they certified the Oct., 2021 election which had so many unanswered issues.
- Legal blockades to gaining critical information about our election machinery, people, processes to help change for the better.
- Inability to gain voter rolls from the date of the election. Files received have had ongoing changes within them.
- To date there are no counties where voter roll data has been received that matches up to the certified vote count from the November 2020 election.
- Funding required to obtain voter data across counties and state to reconcile vote totals and ensure clean voter rolls

Legislature

- Super Majority of Republican Legislators continues to fail legislation to close primaries to crossover voters despite support from State Executive Committee.
- Inability to convince legislators of vulnerabilities
- **6 Strong Election Integrity Bills Failed to make it out of Committee**
- HB 2121/SB 2267: Clean up voter rolls; Give Gen Ambly standing for violations.
- HB 1883/SB 1865: By 2024, SoS conduct random forensic audits of selected # counties and voting machine vendors post-November statewide elections;
- HB 2305/SB 2364: Comptroller/TBI/DAs identify election crime specialists; training, & educational materials for local law enforcement.;
- HB 2203/SB 2643: No foreign financing, interference in elections.
- HB 2011/SB 2877: Process to complain re: commission malfeasance/neglect.
- HB 2074/SB 2359: Hand-marked ballots with security markings

Legal Issues

- We desperately need legal representation to scare bureaucrats into realizing we have the power to achieve what we need to achieve and tear down any blockade they put up. Not able to move fast enough to address needed changes.
- We are in desperate need of an attorney to work with us to force the election commission at local and state level to produce public records we have requested through FOIA requests (CVRs for 2020 and 2022 elections, voter rolls, etc.).
- Financial Support needed for ongoing lawsuits and legal fees to hold both our elected and selected officials accountable.
- Any attempt to have law enforcement intervene is typically met with hesitation due to many factors including personal relationships with those who benefit from a fraudulent system and district attorneys who themselves are elected using these systems.

Public Awareness

- Need to get citizens to understand that the technology in our voting system is destroying our freedom. This includes the people employed to run our elections. Having a basic understanding of technology and cybersecurity should be requirement for poll workers.
- We need more concerned people in our state to become aware of what the problems are with election integrity. In TN everyone is very complacent because they think we have a conservative Republican state. They have no idea that we are in such grave danger of being the next Georgia. We need more people to help us.
- We need some way to educate the public. The media is all part of the Deep State here and friends with RINOs.

Team Building

- We have no single group moving election integrity forward across the state. We are fractured and not together as we need to be.
- TN Voters for Election Integrity is primarily working in Williamson County where we live, not the whole state. We become overwhelmed just trying to move election integrity here in our own county. We need to be unified under one group ideally.
- Getting good people/patriots whom we can trust on our team to manage parts of our total effort at changing our election system.
- The time and ability to link arms with others in Tennessee who are concerned with election integrity and join forces.

Victories

Voting Systems

- Williamson - After issues were reported in the October 2021 Election, Dominion was removed and replaced with short-term contract with ES&S in time for the May 2022 County Primary
- Maury – Secured option for voters to use paper ballot vs. BMD beginning in 2023 election

Legal Battles

- Shelby - Convened Special Grand Jury to prosecute and remove current County Election Officials.
- Hamilton - Suing HCEC and SOS regarding refusal to provide FOIA requests and other public information.
- Williamson – Lawyer engaged to secure 2020 CVR.

Legislation

- HB 2331/SB 2558: By 2024, ea. voting machine have VVPAT(Voter Verified Paper Audit Trail)
- HB 2128/SB 2245: Prevents non-citizens from voting in our elections.

Grassroots Growth

- Elected Officials
- Sumner - Elected 13 Conservative County Commissioners
- Williamson - Elected 9 Strong Conservatives to County Commission
- Creation of Two PACS to identify/support True Conservatives to County/State offices:
 - Williamson-Families
 - Stand for TN
- Establishment of Tennessee Voters for Election Integrity

Citizens in Action

- Election Integrity Events held in January 2022 in both Williamson & Rutherford draws 100's of Patriots
- Featured Guests: Dr. Frank, Capt Keshel, Prof Clements, Benny Smith, Garland Favorito & Mark Finchem
- Rutherford - Through monthly meetings with Election Board, stopped request to place voting center on local college campus being requested in effort to obtain "Leftist" grant funds
- 20+ Presentations by TVEI to present research and election integrity recommendations

Poll Watchers/ Canvassing

- Williamson - 184 Poll Watchers Recruited & Trained
- Davidson - 157 Poll Watchers Recruited & Trained
- Rutherford – Poll watching recruitment & training – In Progress
- Canvassing Groups Formed Across at least 9 different Counties
