ADJUDICATION

Allows for **efficient processing of ballots that require resolution of voter intent** during the post-voting stage of an election.

Once scanned on ImageCast® Central scanners, **ballots with out-stack conditions are automatically sent to the Adjudication application for digital ballot review.**

Adjudicators will always have the full ballot in front of them, **ensuring complete transparency during ballot intent checking.**

Ballot changes always preserve the voter's original intent. **Anyone reviewing a ballot will be able to see how the voter marked their ballot, how the scanner interpreted the intent, and how the ballot was adjudicated** (shown below).
