I agree. Who ever thought tracking in-person voting would be an issue?

I've sent a message to the vista support team for help crafting the right language. It's been very tricky trying to figure out how to message some counties using machines, some counties using ballot replacement, and some counties giving provisionals to all in-person voters.

I'm sorry that you're getting so many emails on the subject. We'll figure out some changes that will hopefully alleviate some of the issues.

Thank you Justin. When have we ever had to track ballots for people who voted in person?

I forwarded just a couple of the messages to you so you could see where the confusion is.

I don't want to ignore these messages from voters and leave them thinking their ballot didn't count. I had nearly 200 messages in the got-vote email, and many of them were pertaining to this issue. (It is down to 62 now.)

It is difficult enough to help people track their ballot when they did actually vote by mail. Some of them enter their information incorrectly and they think the error message means there was an error on their ballot. I am actually tracking their ballot for them and sending them a snippet from your website that shows their ballot was counted.

You'd think the phrase track my mail or provisional ballot would clue them in. We can make an adjustment there.

Hi Justin,

We are being slammed with emails and phone calls from voters who are trying to use TRACK YOUR BALLOT to verify if their **in-person ballot** was counted. When they see the message that a ballot was mailed to them, they think their vote didn't count. Will you PLEASE change the message and let voters know that the tool doesn't apply to those who voted in person?

Thank you,

Pam,

I asked the dev team to dive into the logs and anything else they could use to figure this out. They were unable to find anything that could help us determine who entered it. Best guess is that whoever hand entered the voter ID had a typo in the number and got [REDACTED]'s record instead.

Our suggestion is that you delete the vote history for [REDACTED].

Hi Justin & Derek,

We had a candidate ([REDACTED]) who came into our office to file and started completing his Conflict of Interest Disclosure about 4:55 pm. However, he had a problem creating his account to get that completed. He tried three different computers and finally got it to work. We don't know if it was a glitch on our end or the LG's site. However, now the establishment of his account isn't being accepted.

Stephen Moore tried to call your office, but no one answered. He should have been in time to be processed.

We are going to let him complete his filing.

Huge thanks and kudos to Brian McKenzie, who put together some well-thought-out changes, which are attached.

Please take a few minutes to look at these changes and reply with thoughts and/or suggestions. They're not long or complicated, but we'd like to get them before more clerks/elections folks before taking them to Rep. Fawson. He indicated a desire to sponsor legislation to fix these issues.

Thanks,
R.

Given some of the allegations of voter/election fraud in North Carolina and elsewhere, it seems like a good idea to help reassure Utah voters, and the Legislature, that Utah's election are secure, controlled, and in good hands.

Please read the proposed Op-ed draft below and reply before the weekend if you are OK being included as a submitter. If you have any suggested changes, please let me know ASAP.

If we get this published within a week or so, that's pretty good timing with the legislature. We'll shoot for one of the big two papers, but once we get it to them, I'm sure some of the smaller papers will be willing to run it.

Thanks!
