Roadblocks

Selected, Not Elected

- Since 1975
- Run on same ticket (no SoS)
- Over elections
- No term limits for governor
- SB 0025

Governor & Lt. Governor

- Intervenes on lawsuit
- Redefine audit & election returns
- Threats
- Withheld v-rolls

Lack of Transparency

- ~\$100,000 for public records of machines
- Legislative policy no SRC
- “No records”
- RCV

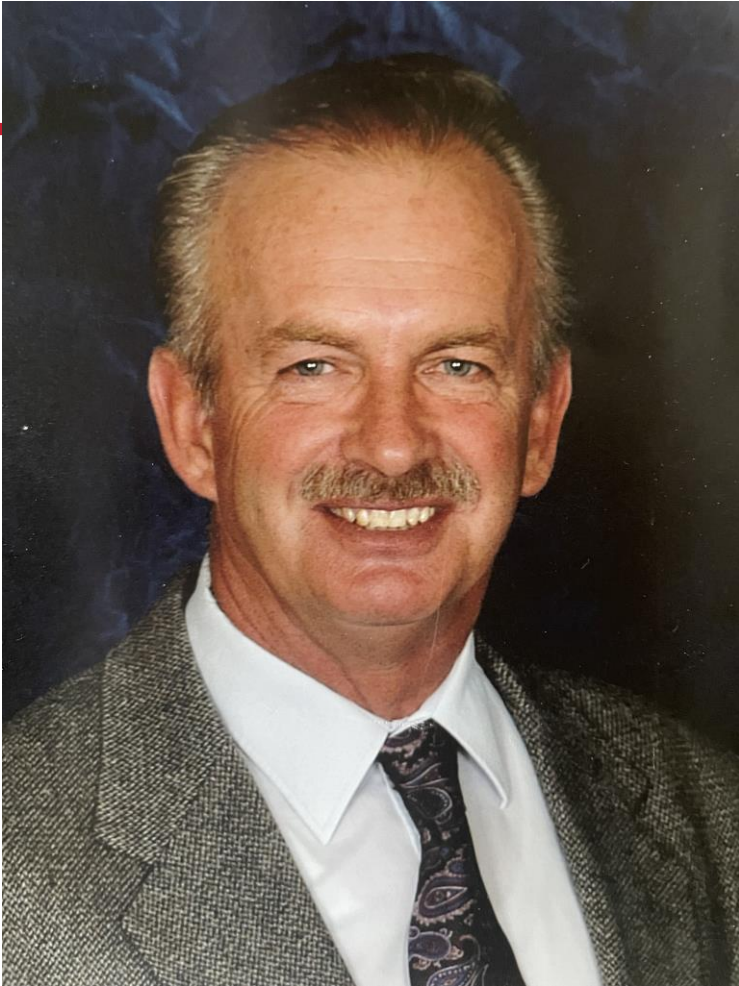

Legislation

- Not investigate machines or election data
- Government Immunity Act
- No sheriffs
- No recalls

Election Overturn in Salt Lake County

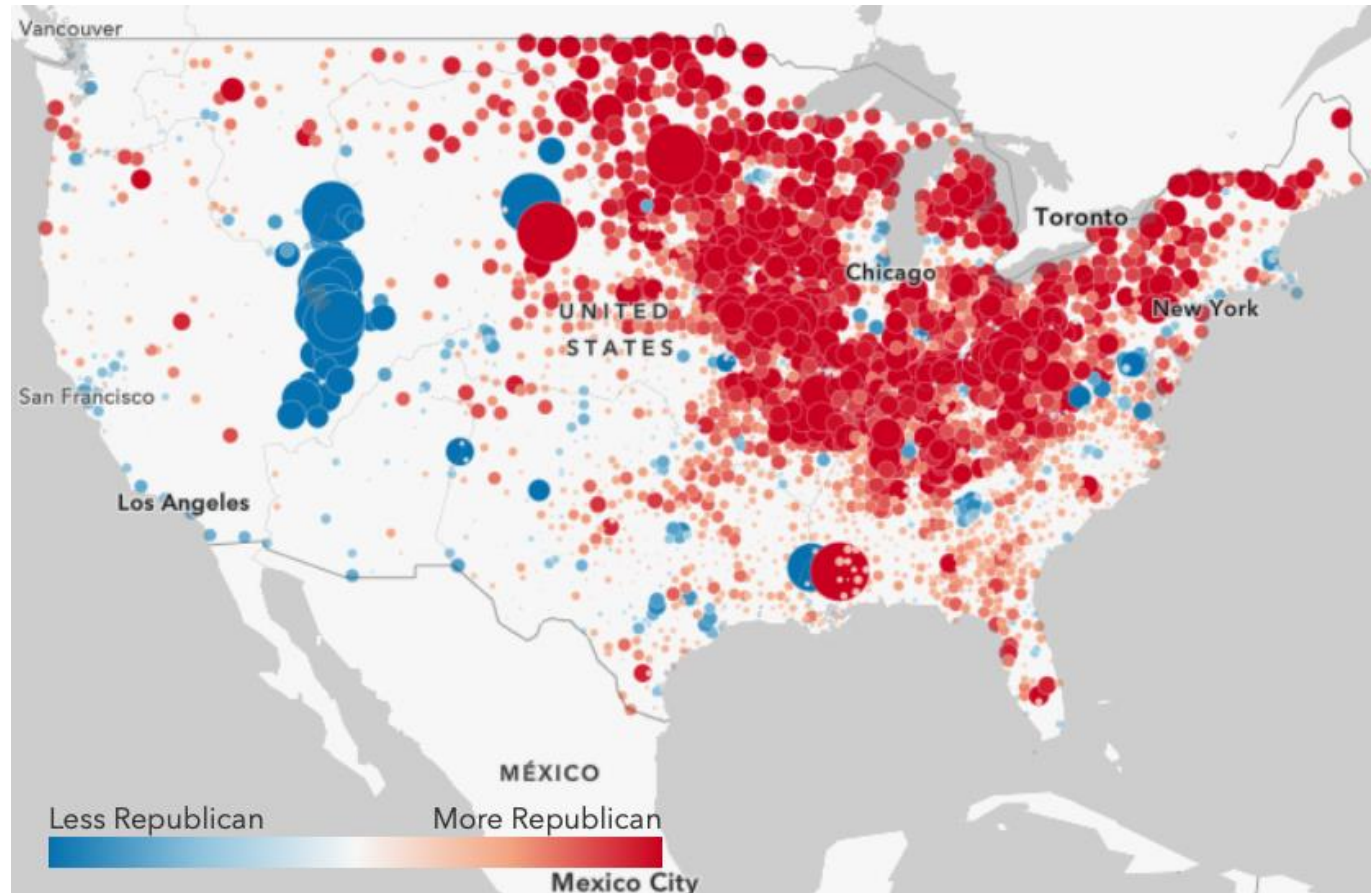

- Salt Lake County Commission race, 1998
- 1,413 votes never showed in the total
- Programming error caused batch to not count even though they were run through machine
- When 1,413 were properly counted, it reversed the election results

Bruce Funk, Emery Co—2006

- found vote flipping software added or activated by using a date
- resetting clock to real date = no log of changes
- vote flipping software removed itself
- no log after replacing OS of computer
- physical—plugs fall out of sockets, casings easily removed w/screwdriver
- unmarked button “completely accessible to voters” can manually reset the machine
- technical—boot loader “seems to enable a malicious person to compromise the equipment.”
- Lt Gov Chief of Staff reply: “Yeah, and ...?”

Republican Swing, US Presidential Election 2012-2016

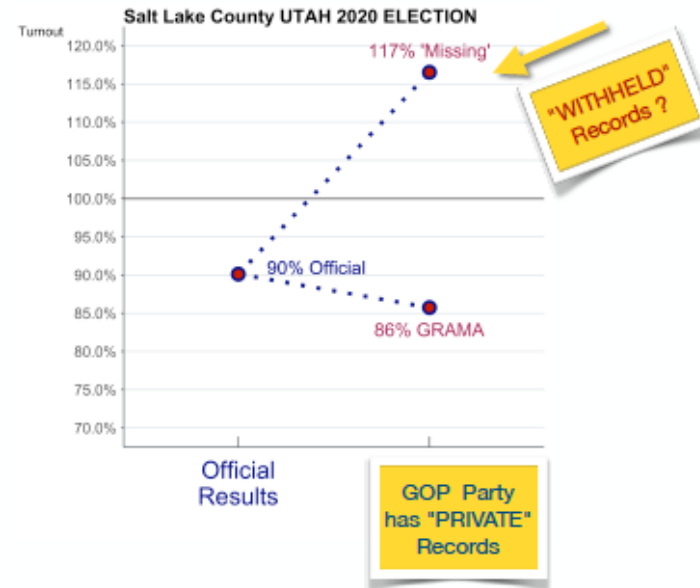

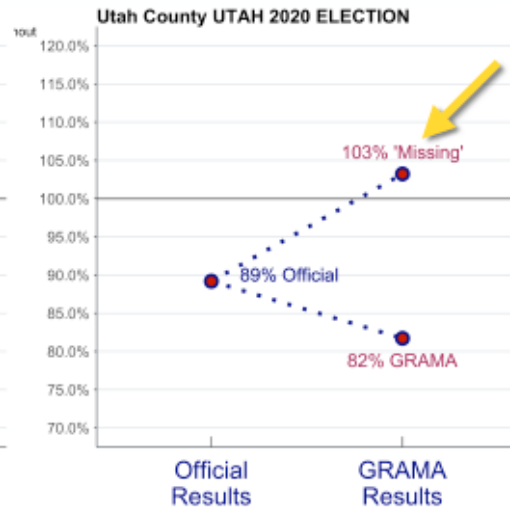

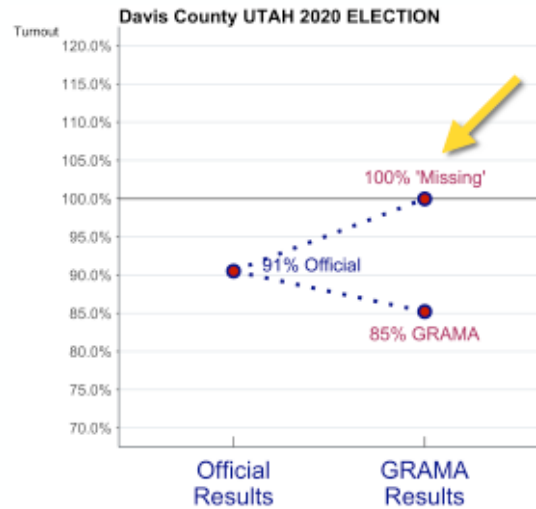

Hide and Seek

Several Utah Counties showed troubling vote reports during the 2020 Election

COUNTY	TIME	EVENT
Box Elder	11/04/2020 3:29 AM	Approx. 10,000 votes switched from "In person" to "absentee"
Salt Lake	11/04/2020 3:29 AM	Approx 250,000 votes switched from "in person" to "absentee"
Salt Lake	11/14/2020 10:41 AM	Aprox 175,000 votes switched from "in person" to "absentee"
Unitah	11/04/2020 3:29 AM	Approx. 10,000 votes switched from "In person" to "absentee"
Utah	11/11/2020 5:59 PM	2,999 votes removed from total with no change to any candidate

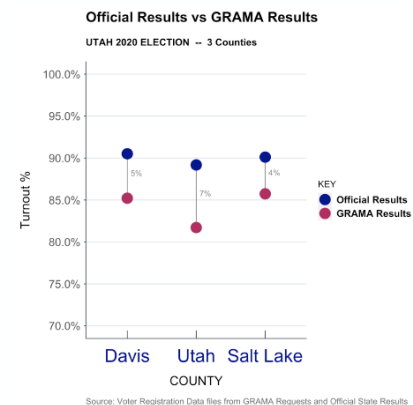

Switching in-person votes to absentee with different candidate selections is a suspected method of illicit vote manipulation.
