# Explain This

---

Breaking of Chain of Custody & Seal

Candidates Names Left Off Ballot  
During Early Voting of the  
Primaries. Voting machine issues

GOP Chairman Touts over 250k  
people clean from Voter Rolls.  
False.

Open Primaries, GOP & SC State  
Legislature Apathy

# Roadblocks

## Election Commission

- Hostile relations with our Election commission--they don't think there is a problem and are not responding to FOIA requests.
- Our Election Commission is heavily centralized which means that all requests or any type of changes or actions need to go through the state election commission
- Refusal to clear voter rolls.

## Legislators & GOP

- Getting legislators to believe that we do have issues in SC and that they need to fix 2020 not move on
- Our state GOP doesn't believe there was fraud and are confident along with our SEC and legislators that the election integrity bill just passed in May 2022 is robust and covers all the bases
- State GOP Chair touted that over 250k voters removed from voter rolls. False.

## AG

- AG won't allow Cast Vote Records due to opinion they gave to previous director of the commission---just prior to the 2020 election
- AG met with Dr. Frank on two occasions yet did nothing.

# Victories

## Public Awareness

- Activating citizens
- Conducted voter and legislator education regarding issues with elections around the state- educational seminars, blogs, videos, and workshops
- GOP has requested information regarding voting vulnerabilities & requested election fraud experts to present their findings.
- Multiple meetings with state leaders as well as large grass roots efforts across the state.

## Election Process Review

- Reviewed and studied along with national and state data analysts and cyber-experts our 4-stage election process in detail- voter rolls, EPBs (electronic poll books), EMS (Election Management System ES&S 6.1.1.0 and 6.0.2.0), and reporting (SCYTL and Edison); this is an ongoing process

## Legislation

- Election reform legislation passed although not as strong as desired

## FOIA Success

- FOIAed various documents regarding ERIC/SEC/ES&S/CTCL and other outside entities (ongoing)

## Canvassing

- Canvassed 8 major counties in South Carolina. Results showed a high rate of dead registered voters and people registered and voted who had moved many years prior to 2020 election day. We also found people registered and who voted from commercial addresses and ineligible addresses. There was also evidence of ballot harvesting and people who were mentally incompetent voting at nursing homes. In Charleston County where we had the highest penetration of canvass efforts, we found that 3 races could have been overturned by these results.

## Election Defense System

- We conducted a pilot program for an Election Defense System of poll watching and other activities in several counties during the 2022 primary and documented several anomalies that generated affidavits.
