Reason for Hope: Hand Count Success

California

- Shasta County Board of Supervisors voted to terminate their Dominion Voting Systems contract.
- Weeks following the vote, the California Legislature introduced a bill (AB 969) that would require counties to have a transition plan and replacement contract with a state-certified machine vendor.
- The bill will require the use of machines in elections that have 1000 or more registered voters in any precinct.
- AB 969 has passed the Assembly and is currently in the Senate as of August 14, 2023.
