decided to call the Chaffee County Sheriff's Office for assistance. The Deputy deferred to Clerk Mitchell. I was never allowed within proximity of the scanning process. I was told to sit and watch at a distance through a dirty, wired window. You can watch the bodycam footage of this encounter, and review other data here: Chaffee County Poll Watcher. Earlier the Sheriff's Deputy had consulted Sheriff Spezze, who stated it is not the responsibility of the Chaffee County Sheriff's Dept to enforce election law. So I ask: who is responsible for enforcing the law? If not the County Sheriff, then who? Show me a system of laws without enforcement, and I will show you a broken system. Such is the advantage of power of our elected officials, where lawful public oversight of our election process is denied, and my only recourse is to pay for this ad. This is not new coming out of the Chaffee County Clerk's office with their overreach of power, made-up (unlawful) rules, and restrictions of public oversight. We still have never seen the 2020 election surveillance videos, and have received no definitive explanation for how the system supposedly failed. Efforts to obtain election surveillance video from the 2022 Primary election have stalled due to the exorbitant fees being demanded. And now there are election processes scattered throughout the County Courthouse's back rooms, hallways, basement room, and the fairgrounds miles away, it is evident that there are not sufficient cameras/placement to ensure election integrity. I asked a County Employee why the election process was separated, She mentioned because of the threats to Lori, I responded "Do you mean the squirt gun incident?" this question was met with admonishment from the County employee. Also, Clerk Mitchell was on the recent Primary ballot, and is by law not allowed in the ballot handling facilities, but there she was personally transporting ballots, making flash drives of results, uploading results all by herself, a job which requires by law a buddy system of one each Republican and Democrat election judges. I invite Clerk Mitchell to respond to this letter and to engage in a civil and open dialog. There is a repeated claim that Chaffee County has gold standard elections. I assume this means that if the laws and procedures are being followed, the election outcomes can be trusted. I can personally attest that the laws and procedures as written are NOT being followed. We should continue to vote, but to ask questions, and speak up with what we witness and experience until this is rectified. I, like all electors, just want to trust the process, and have our entire vote count, whether it be in Our small County, Our State, or Our Whole United States. Our government officials spend an awful lot of time telling us there are no problems with elections. These same people refuse to allow us to watch these election processes, and scream if anyone wants to investigate any election issue. We deserve better. Do you sense a pattern here? What is the problem if there is nothing to hide? 8 Replies V Republican Primary 1 created last reply replies **GetReadyMan** 4d GetReadyMan: I attempted to participate as a Poll Watcher. I volunteer my time because I want to trust our elections. Here's an email to Clerk Mitchell asking for the election schedule. Clerk Mitchell never responded.
