## Reason for Hope

### New Mexico

- Massive grassroots statewide organization now in place with partnerships with multiple groups including Cause of America, Better Together New Mexico, and New Mexico Election Integrity Network.
- New Mexico Election Integrity Network (NMET) team, led by John Veltri, Marijo Streetz, Mark and Ramona Goolsby, has attended EVERY Sandoval County commission meeting since March 2022. Were successful in getting Sandoval County on the record opposing bad election bills.
- Approximately 1.2 million emails sent to legislators opposing bad election and child mutilation bills.
- Multiple pro se lawsuits filed on elections.
- Statewide grassroots effort to referendum bad election and child mutilation bills. Hundreds of churches are now helping. Will be able to challenge bad election bills at the ballot box.

## Reason for Hope: Lawsuit Success

### New Mexico

- There is a case in the 5th Judicial District on the legal certification of the voting machines used in the 2022 elections. Next hearing is October 3rd.
- There are currently 6 different Lawsuits in District Courts pertaining to the Referendum process to place new voting legislation on the ballot in 2024.
- There has been a case filed in the New Mexico Supreme Court for Superintendent Control of the previously mentioned case.
- We have discovered our official election results are illegally being processed on internet-connected, centralized software under the control of the SoS. This gives us new leverage to pursue ditching the machines and implicating the SoS and County officials in additional legal action.
